Know Shipping Restrictions Prior To A PCS Move

Those getting ready to the United States this summer should start preparing now according to customs officials. They recommend people find new homes for items banned from import and apply now for import permits on restricted items. Prohibited items include plants, flammable substances, poisons, obscene publications, destructive devices, explosives and meat and meat products. Prescription drugs and tobacco products are not allowed in household goods but may be carried onto the plane when you fly home. In order to ship any firearms, owners must have proof of stateside ownership or an import permit. Vehicles not made to U.S. standards must be shipped through a commercial importer registered with the Department of Transportation. Mopeds and motorcycles must also meet U.S. safety and pollution standards and be free of dirt. For more info visit the local military customs office or check out the military customs Web site at www.hqusareur.army.mil/opm/customs.htm.
